

STAINLESS COLOR

A superior solution through pre-painting of aluminium

The characteristics of aluminium and the appearance of stainless steel allow something new - design mixed with functionality - at one third of the weight of stainless steel. STAINLESS COLOR is an innovation of Novelis. The unique surface finish is second to none in terms of performance thereby accentuating the values of aluminium.

Properties

- improved surface finish
- high quality paint systems
- high durability in terms of outdoor exposure especially UV resistance.
- equivalent performance to PVdF-coatings

Advantages compared to other products

- fire rating **A1** according to EN 13501
- stainless steel look a like
- suitable for indoor and **outdoor** applications
- increased **abrasion resistance** such as SP80 coating
