PREMARK®

4 reasons for using PREMARK®

Patented visible temperature indicator system – for user-friendly installation

Clear indication of when enough heat has been applied
Enables easy post installation control check

Flexibility – for easy handling

Easy material handling in both cold and hot weather conditions
Strong storage capabilities

Surface glass beads – for high retro-reflection & little wrapping

40% glass bead content for high retro-reflection (R3 class)
No plastic separation sheets between each layer

Dirt resistance – for daytime visibility

High imperviousness to oil, rubber and dirt

Made in Denmark by LKF
